# Inflation Data

2024-11-15

The dataset we use stems from the Bank of England Research datasets.
I quote:

> This dataset contains the **individual** responses to our *Inflation Attitudes Survey*, a quarterly survey of people's feelings about inflation and other economic variables like the interest rate.

For this dataset the **Bank of England** asked 220.846 people for their opinion on the perceived and expected inflation. The survey has run quarterly since 2001.
